SKILLS

Programming Languages	TypeScript, JavaScript (ES6+), Python, HTML, CSS
Frontend Technologies	React.js, Chart.js, Recharts, Tailwind CSS, Lodash,Jest
Backend Technologies	Node.js, Express.js, RESTful APIs
Cloud & DevOps	AWS (EC2, Lambda, S3, Amplify), Docker, CI/CD Pipelines, Git
Security Authentication	OAuth 2.0, JWT, Secure Application Best Practices
Other Skills	Data Visualization, API Integration, Responsive Design, Agile Methodologies

EXPERIENCE

Web Developer | University of Memphis - Memphis, TN Jan 2024 - Aug 2024

- Maintained a university portal using React.js and Angular, improving page load times by 40% and user engagement by 30%.
- Designed responsive web applications with Tailwind CSS, optimizing mobile experience and increasing mobile traffic by 50%.
- Conducted code reviews and mentored junior developers, reducing server response times by 25

Programming Analyst | Cognizant Tech Solutions - Hyderabad, Ts Nov 2021 - Dec 2022

- Delivered scalable enterprise solutions using React.js, Node.js, and Django, enhancing system scalability by 15%.
- Designed and implemented RESTful APIs and secure application flows, handling sensitive user data securely.
- Integrated data visualization tools (Chart.js, Recharts) to enhance user insights and improve decision-making efficiency.
- Developed and maintained AWS-based services (EC2, S3, Lambda, Amplify), optimizing cloud infrastructure.
- Automated CI/CD pipelines with Jenkins and Docker, improving software delivery efficiency.
- Collaborated in Agile environments, delivering features 15% faster and optimizing customer experience.

PROJECTS | [GITHUB.COM/PRAVEEN5470](https://github.com/PRAVEEN5470)

Ecommerce Website | [Link](#)

- Built a feature-rich e-commerce platform using React, Django, and Tailwind CSS with dynamic product pages, secure payment functionality, and seamless API integration.

AutoCare-Mechanic Shop Management Website | [Link](#)

- Developed a full-stack web app for booking and managing auto repair services.
- Designed an interactive UI with TailwindCSS and optimized performance with Vite.

Netflix-Clone: | [Link](#)

- Developed a Netflix clone using React, Firebase, and Django Framework, featuring user authentication, TMDb API integration, and responsive design.

Weather-Forecasting : | [Link](#)

- Developed a weather app using React, Vite, and OpenWeatherMap API, providing real-time weather updates with a responsive, mobile-first design.

EDUCATION

Master in Data Science | University of Memphis, Memphis,TN Jan 2023 - Dec 2024

Bachelor of Electronics and Communicational Engineering | GuruNanak University June 2017- May 2021

LEADERSHIP & ACHIEVEMENTS:

- **Community Ambassador at University of Memphis:**Led global initiatives to foster cross-cultural collaboration and mentorship, advocating for inclusivity.

CERTIFICATIONS

- Skyscanner Front-End Software Engineering Virtual Experience Program – Forage
- React Certification – LinkedIn Learning
- Microsoft Azure Fundamentals (AZ-900) – In Progress
